B. Affordable Housing by Municipality - For Rent or Sale

“Affordable housing” is available to people of low and moderate income at a reasonable price. A unit is generally considered affordable if the owner/renter pays approximately 30% or less of his/her gross income on housing costs. Housing costs include the base rent as well as the cost of utilities for renters, and include mortgage payments, property taxes, insurance, and homeowner’s association fees for owners. Families, singles, and seniors can qualify for affordable housing. Many of the units are part of the municipality’s affordable housing requirements as defined by the Council on Affordable Housing (COAH.)

The following list provides contacts for each municipality (municipal housing liaisons), as well as brief descriptions of some of the affordable housing units located in the municipality. *This list does not provide information on which individual units are currently vacant and available for rent or sale. C. Additional Housing Options

1. Elder Cottage Housing Opportunities (ECHO Units)

An ECHO unit is a small, removable modular cottage put on a concrete slab or treated wood foundation in a back or side yard of a home. The unit is specifically designed to meet the needs of seniors or people with disabilities. This permits people to live independently, but close to those who are concerned about them. The cottages vary in size, from efficiency units to larger units. ECHO units are connected to the utilities of the primary dwelling and can be fashioned to match or complement the house. The unit is designed to be removed when it is no longer being used. Zoning and environmental protection requirements must be met in order to install this type of temporary housing. Units may be bought, but ECHO programs in some NJ counties enable older or disabled persons to rent ECHO units, sometimes at affordable rates. Call the NJ Department of Health and Senior Services, Division of Aging and Community Services, at 1-800-792-8820, or contact the municipality for more information.

2. Accessory Apartments

Accessory apartments are independent housing units created out of the surplus space in single family homes. Examples of accessory units include mother-daughter homes or converted attics or garages. The accessory unit is subordinate to the primary unit in terms of size, space, location and appearance. The main structure is usually divided so that the subordinate unit can function independently of the main common utility service. Call the NJ Department of Health and Senior Services, Division of Aging and Community Services, at 1-800-792-8820, or contact the municipality for more information.
